Executive Summary

- Audax Renovables ended the third quarter 2017 with a profit of EUR 3,109 thousand, in contrast to the loss of EUR 8,320 thousand for the same period of the previous year.
- This difference between the two results is owed primarily to the following factors:
 - Higher average sale price of the energy on the Spanish market (pool) 48% higher than the same period of the previous year (EUR 4,031 thousand).
 - Special remuneration received by the Spanish projects during the 2017 to 2019 regulatory term are higher than in the previous period by EUR 1,303 thousand due to the update of the parameters published in the decree ETU/130/2017.
 - Reduction in expenses and cost containment which have been implemented bring a substantial decrease in the operating costs, which have been 19% lower.
 - At the close of September 2016 a provision was registered for expenses related to the takeover bid by Audax Energía, S.A. amounting to EUR 1,538 thousand.
 - During the previous period an impairment provision related to the wind farm Postolin in Poland was registered amounting to EUR 3,409 thousand due to regulatory amendments approved in that country.
- Thus, a rise in market price of the energy in the third quarter together with an increased production of the wind farms boost the incomes by 25% which, combined with the decrease in operating expenses, make the EBITDA 82% higher.
- Furthermore, on 30 January 2017, Audax Renovables renewed the corporate financing agreement for the amount of EUR 4.6 million, by extending the maturity date till 31 January 2018.
- On 29 June 2017 the General Meeting of Shareholders decided, among others, to change the name of the Company to "Audax Renovables, S.A.". Furthermore, it was decided to appoint KPMG Auditores, S.L. as the auditor of accounts of the Company for the period of three (3) years.

EUR thousands

Audax Renovables ended the third quarter 2017 with a profit of EUR 3,109 thousand.

Key Figures

As at September 2017, the production breakdown by country is as follows:

GWh Production	3Q2017	%	3Q2016	%	% Var.
Spain	246.0	76%	224.0	76%	10%
France	22.1	7%	20.4	8%	8%
Poland	54.7	17%	49.2	16%	11%
Total	322.8	100%	293.6	100%	10%

As at September 2017, the turnover breakdown by country is as follows:

Turnover (M€)	3Q2017	%	3Q2016	%	% Var.
Spain	21.7	83%	16.5	81%	31%
France	2.0	8%	1.9	9%	10%
Poland	2.4	9%	2.1	10%	18%
Total	26.2	100%	20.5	100%	28%

In Spain, the increase in production by 10% in 2017 compared to the previous year is mainly due to larger wind resources in wind farms in the South of Spain and also to an improved use of these resources by enhancing the performance of the plants which, together with a higher market price, have contributed to the increase of the turnover by 31%.

At an international level, similarly, the well performing wind farm in France has registered an increase in production by 8% compared to the same period of the previous year, with a 10% increase in its turnover. The production of the wind farm in Poland has been 11% higher, together with the revaluation of the green certificates, involves that its turnover is 18% higher than in the third quarter 2016.

Key Figures

As at September 2017, the installed capacity breakdown by country is as follows:

Installed capacity (MW)	3Q2017	%	3Q2016	%
Spain	139	75%	139	75%
France	12	7%	12	7%
Poland	34	18%	34	18%
Total	185	100%	185	100%

• The Audax Renovables' portfolio breakdown by country as at September 2017 is as follows:

MW	Operating	Under development	Total portfolio	%
Spain	139	50	189	51%
France	12	0	12	3%
Poland	34	34	68	19%
Panama *	0	99	99	27%
TOTAL	185	183	368	100%

^{*} Attributable capacity (30% of 330 MW)

EUR thousands

Analysis of the Results

- The net turnover, including the effect of the price hedging contracts, has amounted to EUR 26,172 thousand, which implies an increase of 28% compared to the same period of 2016 (EUR 20,463 thousand), primarily due to higher prices on the energy market (pool) in Spain, to the increase in production and as well as higher special remunerations during the new regulatory term.
- Regarding the price hedging contracts aforementioned, the third quarter 2017 accrued impact is a less turnover of EUR 739 thousands, amounting 3,5% of the total turnover of the Spanish wind farms.

Consolidated Income Statement

Analysis of the Results (continuation)

- Operating expenses, without taking into consideration the effect of the increase of the 7% tax on generation of electricity and other accounts affected by a higher turnover, are 19% lower due to the Company's cost containment policy and reduction in expenses. Moreover, in the previous year a EUR 1,538 thousands provision was made for the costs related to the takeover bid by Audax Energía S.A.
- In June 2016, as a consequence of new regulations in Poland, the impairment tests were updated and a provision of EUR 3,409 thousand was registered.
- Financial expenditure has decreased by 14% compared to the same period of the previous year, owing, among others, to a reduction in financial burden from the project finance.
- Audax Renovables ends the third quarter 2017 with a Net Profit Attributable to the Parent Company amounting to EUR 3,109 thousand, against loss of EUR 8,320 thousand for the same period of the previous year.

EUR thousands

The consolidated balance sheet for the third quarter 2017 shows a decrease in the "Bank loans" and "Cash and cash equivalents" accounts, mainly due to the repayments of the project finance loans related to the operating projects during the period.

Consolidated Balance Sheet

Net Financial Debt

- As at 30 September 2017 the net financial debt amounts to EUR 121 million and corresponds almost entirely to financing of investments in property, plant and equipment of the wind farms ("Project Finance" modality), with a maturity period between 12 and 15 years. The principal of the bank loans of Audax Renovables (corporate debt) as at 30 September 2017 amounts to EUR 4.6 million.
- This consolidated debt implies a financial leverage of 61.5% as shown in the table below.

Net Financial Debt	Sep-17	Dec-16	Var.	%
