EUR thousands

Audax Renovables ends financial year 2019 with a net profit of EUR 25,417 thousands, increasing its EBITDA by 37.2%.

- These results shows that the Group has taken a great step towards achieving the targets to be reached in 2022, presented at the General Shareholders' Meeting and on the Capital Markets Day.
- The clients portfolio in the supply division has risen by 11% compared to the previous year, placing the Group as the first electricity retailer in the SME segment in Spain, with a noticeable increase in the natural gas business.
- Throughout the year 2019, Audax Renovables concluded several PPAs (Power Purchase Agreements) for long-term purchase of energy generated by various photovoltaic plants in Spain and Portugal, which will bring approximately 1.9 TWh/year of green energy to our customers. These agreements, together with the progressive implementation of the 320 MW of photovoltaic plants in the portfolio, will continue to contribute to the supplying of 100% renewable energy to our customers.
- The asset rotation strategy carried out has resulted in a net cash inflow of EUR 51.3 million and a positive impact on the income statement of EUR 4.9 million, as well as a reduction in net financial debt by 40% compared to the same period of the previous year even having expanded financing by EUR 60 million between promissory notes and bonds.
- The implementation of the targets presented during 2019 and the results achieved have contributed to the increase of the share value, which has risen by 66.5% throughout the year.

Significant Events within the Reporting Period

Among the most important events of the period, we can point out the following:

- On February 18, Audax renewed its current program of **promissory notes** of €50 million, and extended it with a new program of up to €75 million with a maturity of up to 24 months.
- Audax informed on 4 February that started acting as representative for the sale of electric energy in the Portuguese market of the photovoltaic installation Ourika of 46MWp, developed by Welink Group and owned by the company Morningchapter S.A., controlled by Allianz Insurance Companies, under a power purchase agreement (**PPA**) for 20 years.
- On 7 February it was announced the signature of a representation agreement for the sale of electric power on the Portuguese market from the Solara4 photovoltaic power station of 218.8 MWp, pursuant to the 20-year fixed-price framework **PPA**, signed with WElink Investment Holdings (Ireland) Ltd., under which Audax will purchase the energy produced by photovoltaic projects in Spain and Portugal, with an option to achieve a total of 708 MW.
- On 19 March it has been closed a representation agreement for the long-term trade of electric power from different photovoltaic facilities owned by the company Trina Solar (Spain) Systems S.L.U. in Spain. The Group will acquire for 20 years, through **PPA** contracts, all the electrical energy produced by these photovoltaic facilities, with a capacity of up to 300 MWp.
- On April Audax communicated that the rating agency AXESOR awarded the **rating** of Audax Renovables, S.A. in "**BBB-**" with **stable outlook**.
- On 29 April, **General Shareholders' Meeting** has been held, where, in addition to publishing the resolutions adopted, the main course of action for 2022 were presented:
 1. Strengthen the Audax's leadership as the first independent supplier in the SME segment of the Spanish market.
 2. Double its profitability, by covering 2/3 of the energy supplied to its clients with long-term PPA contracts attached to third party and own solar PV assets developed in-house, following an assets rotation strategy.
 3. Replicate the success achieved in Spain on an international scale in those countries where it is already operating.

CONSOLIDATED MANAGEMENT REPORT 4Q 2019

Significant Events within the Reporting Period

- On 8 May, Audax announced the incorporation of **photovoltaic projects for 320 MW** located in Andalucía, Castilla la Mancha and Murcia, 60 MW of which are in a very advanced stage. Projects mentioned have been acquired through purchase for a total combined price of EUR 19,848 thousands. The energy produced in the future by these photovoltaic projects will be sold through the incorporation of a PPA in the supply division of Audax.
- On May 28th, the first Audax Renovables' **Investor Day** was held. The company was presented by José Elías, Chairman, founder and majority shareholder; Eduard Romeu, Vice-President and CFO, and Anabel López, General Manager. The management used this opportunity to explain the history of the company, its main achievements and its guidelines:

Audax Group targets

Key figures

■ Generation division:

The detail of installed capacity as at 31st December by country is as follows:

Installed capacity - 91 MW

- The Group announced during 2019 the sale of three of its Spanish subsidiaries with projects in operation. The operations have been the following:
 - Transmission of direct participations of 100% of the capital and associated loans of the company Parc Eòlic Mudéfer, S.L., a wind project located in the province of Tarragona, with an installed capacity of 57.6 MW;
 - Transmission of the 76% direct participation and associated credit rights of the company Gestora Fotovoltaica de Castellón, S.L., a solar project located in the province of Castellón, with an installed capacity of 1.0 MW;
 - Transmission of direct participations of 100% of the capital and associated loans of the company Parque Eólico Hinojal, S.L., a wind project located in the province of Cádiz, with an installed capacity of 36.0 MW;

The abovementioned operations, are part of the Group's debt reduction target and are in line with asset rotation strategy undertaken by the Company, objectives presented on its Investor Day celebrated in May. Therefore, the installed capacity at the end of 2019 stands at 91 MW, all corresponding to wind technology.

- On 8th May, Audax announced the incorporation of photovoltaic projects for 320 MW located in Andalucía, Castilla la Mancha and Murcia; 60 MW of which are in a very advanced stage. Projects mentioned will supply, once its commissioning starts up, around 600 GWh per year of green energy, which is equivalent to the annual consumption of more than 175.000 households.

Key Figures

■ Generation division:

The production distribution by country is as follows:

- Accumulated production of the 2019 was **365 GWh**, only down by 5% on the same period of the previous year, taking into account that production of Mudefer wind farm of 57.6 MW, Gestora solar plant of 1 MW and Hinojal wind farm of 36.0 MW, are not accounted in these figures of 2019 since their respective sales. The comparative production in respect to 2018, has been 6% higher, highlighting the good performance of the Postolin wind farm in Poland.

2019 audited / 2018 restated

Note about financial statements presented:

The 2018 financial statements have been restated due to the Group considers that the investment in Main Energie B.V. and Audax Netherlands B.V. should be considered 100% ownership instead of 71.97% as they had been submitted, since there is an agreement that allows 100% ownership to be reached. The Consolidated Profit and Loss account for 2018 has been modified under the heading Financial expenses, with an increase of EUR 585 thousand.

The Consolidated Profit and Loss account at the end of the 2019 fiscal year incorporates the UniEléctrica figures for the full year of 2019, instead, in the result at the end of 2018 the UniEléctrica figures were consolidated from April to December 2018, due to its incorporation to the perimeter of the Group as of its acquisition date.

- The **Operating income** grew by 5.8%, mainly due, among other factors, to the increase in sales both in Spain, and especially in the Netherlands, Poland and Germany in the supply division. Generation division revenues have been affected by the sale of projects in operation, however, revenues from abroad wind farms have been 34% higher than the same period of last year.
- The increase in revenues, together with the implementation of improvements in the management of the cost of sales, means that the **Gross margin** has stood at 12.2% over the turnover, compared to 10.5% in the same period of the previous year.
- The policy of containment of **Operating Expenses** in this period of global growth, as well as their decrease due to the transmissions of generation projects aforementioned, have decreased by 1% compared to the previous year.

- In the **supply division** in **Spain and Portugal** zone, the good business performance and the incorporation of UniEléctrica in 2018 April, is reflected in the evolution of the EBITDA amounting to EUR 33,494 thousands compared to EUR 22,244 thousands of the previous year (51% increase).
- The **Rest of Europe** supply division, amounted its EBITDA to EUR 9,184 thousands for 2019, compared to EUR -2,512 thousands of the same period of the previous year, giving result to the strategy of replicating the success obtained in Spain in the international markets in which the Company it is present, mainly in Poland and Germany.
- In the **generation division**, the sale of Mudefer, Hinojal and Gestora decreases revenues in Spain, but due, among others, to the good progress of Postolin in Poland, means that operating incomes of this division have only been reduced by 9%. The assets rotation strategy, with the exit of the aforementioned projects in operation and the progressive commissioning of 320 MW in photovoltaic projects, will make that this decrease will be adjusted in a short period of time.
- Taking into account the effects of deterioration, reversal and disposals results of both years, the Group's **EBITDA** stood at EUR 73,250 thousand compared to EUR 53,395 thousand in the same period of the previous year, increasing by 37.2%.

2019 audited / 2018 restated

The decrease of the **Consolidated Balance Sheet** figures showed is due to, mainly, to the exit of the consolidated accounting perimeter of the Mudefer, Hinojal and Gestora generation companies during 2019.
As a consequence of the merger process that took place in 2018, the shareholders' equity of the Parent Company have been situated below one half of the share capital, which involves equity imbalance. In the General Shareholders' Meeting held on April 29, 2019, it was approved the reduction of the nominal value of the shares in order to re-establish the capital balance.

- The Net Financial Debt at the end of 2019, amounts to EUR 182,386 thousands against EUR 306,716 thousands as at 31 December 2018 (decreasing by 40.5%). Besides, **Leverage** declined by 21.5% (14.8 basis points).
- The entry into force of **IFRS 16** "Financial leases" applicable as of January 1, 2019, implies that Other financial liabilities increases by EUR 9,629 thousands compared with December 2018. Without taking into consideration the application of IFRS 16, Net Financial Debt would be at EUR 172,757 thousand (decreasing by 43.7%) and Leverage at 52.6%, decreasing this magnitude by 23.5% compared with December 2018.
- The sale of the generation projects, reduce **Net Financial Debt** in an amount of EUR 66.977 thousands of the total reduction of 2019 amounting EUR 124,330 thousands.
- In February 2019, Audax registered a promissory note program under the name "Audax 2019 Promissory Note Program", in the Alternative Fixed-Income Market ("MARF"), for a maximum amount of EUR 75 millions and with repayment terms of up to 24 months.
- On 16th October, the Company has registered on the Alternative Fixed-Income Market ("MARF") an **increase of the issuance of plain bonds** issued in October 2018 with the ISIN Code ES0305039028, by the amount of **EUR 35 million** of nominal value. The issued bonds are fungible with the bonds issued in October 2018 and, consequently, they have the same economic rights. The issuance is represented by 350 unsecured senior bonds of a single nominal value amounting to EUR 100,000 at an interest rate of 5.5% and with the maturity date on 10 October 2023.

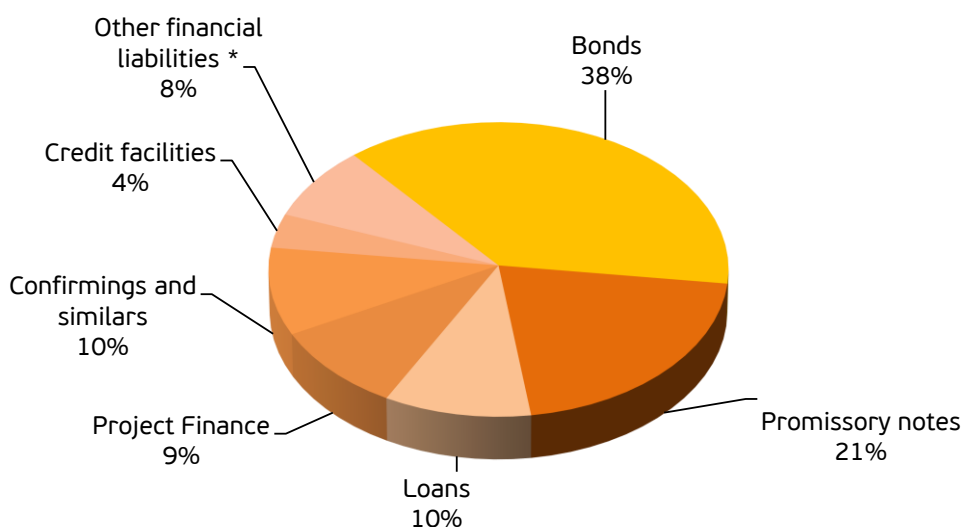

Consolidated Balance Sheet

Financial Debt Structure:

In percentage terms, the structure of the Group's Financial Liabilities⁽¹⁾ shows that the bonds and promissory notes issued in the MARF are those that represent the greatest weight. With the sale of the generation projects, discussed above, the liabilities in Project Finance mode were reduced.

(1) Financial Liabilities = Financial Debt + Other financial liabilities

2019 Financial Liabilities Breakdown

* Other financial liabilities includes EUR 9,629 thousands due to the application of the IFRS 16 rule regarding leases liabilities accounting treatment.

Rating:

The rating agency AXESOR awarded on April 29th the **rating** of Audax Renovables, S.A. in "**BBB-** with stable outlook.
